

KetronSF2 SD1000 Family Map

KetronSF2 SD1000 GM Sound Family Map, offers fans of KETRON sounds a GM bank and more, almost all the presets present in the original Ketron SD1000 physical module. Thanks to our MidiSoundSynth software, it is possible to reproduce a MIDI with a quality very close to that of Ketron SD1000, offering the possibility, thanks to the vast and complete list of presets present, to replace in any MIDI channel and during reproduction the musical instrument that is considered most suitable to make the audio output as realistic as possible and with Ketron timbres.
